Win/lose counter issue

☑ Steps to recreate   Delete

0% |▏ |

- ☐ Navigate to the page URL

- ☐ Click 'Draw" and select a pair that is likely to win. Typically choosing the two highest-health robots in your lineup will guarantee your win.

- ☐ Note that Win/lost counter is at 0:0 before pressing "Duel" button

- ☐ Click "Duel" button and observe outcome. If win, move to next step. If lose, repeat prior steps until win is achieved.

- ☐ Note that the Win/Lose counter tallies the win as a loss.
